XF Series Box Car Special Forklift

with capacities of 8,000 to 12,000lbs

The World of Hangcha
SINCE 1956

CONCEPT

As a part of the XF series from Hangcha Group, the Box Car Special forklift adds a large capacity cushion tire truck to our full line of forklifts. This forklift was designed with a vertical counterweight to meet tight spaced, railroad car applications. The Box Car Special is also versatile enough to meet the demands of typical large capacity cushion forklifts or become a paper roll special by changing the mast to a paper roll clamp. This forklift also includes the latest advancements from Hangcha. These advancements include LED efficient lighting, a load-sensing hydraulic system, low-emission engine, noise/vibration control, and a new control system. This is the Box Car Special forklift from Hangcha Group.

LED Light System and Environmentally-Friendly Materials

LED lights are used throughout the entire truck. The lights are energy efficient, have a longer service life, and offer a significant increase in performance.

Environmentally-friendly materials are also used throughout the truck to minimize environmental damage and impact.

Large LCD Instrument Panel

The newly developed LCD instrument display has additional functions and offers more stable performance. Important information including the running status of the entire truck and a check engine light can be displayed. This allows the operator to easily understand the status of the truck for easy maintenance.

The Wide View Mast Offers Better Visibility

New type of steel channels and mast system of brand-new design are applied to increase visibility in front of the driver.

Low LPG Fuel
Warning Indicator

Maintenance Hatch with a Saftey Latch

The maintenance hatch opens wide enough to provide easy serviceability of key components. The safety latch prevents the hatch from compromising operator safety when using the truck.

Reliable Hydraulic System

The hydraulic system has a longer service life and an increase in efficiency thanks to the optimized hydraulic breather structure with a built-in return oil filter and the load-sensing hydraulic steering system.

Optimized Cooling System

The cooling system has been designed to maximize cooling and increase the reliability of the engine when working under heavy loads. This system uses an aluminum radiator, independent oil cooler, optimized heat transfer channel and a dual-hole counterweight to increase cooling efficiency.

The New Integrated Fuse Box

The next generation of integrated fuse box has been added to the truck. It offers a better layout, ease of service and maintenance, and is waterproof. The entire truck is also equipped with waterproof connectors to increase the electronics' reliability.

Panoramic Rear View Mirror

The panoramic rear view mirror allows the operator to have wider rear visibility when operating the forklift.

**TOUGH
TRUCKS**

North American EPA Certified Engine

The PSI 4.3L LPG engine is in compliance with North American EPA Standards. Although it meets these standards, the engine still has the power and torque to get the job done. This engine is also electronically controlled to increase the fuel economy and the reliability of the trucks.

Ergonomic Design

The small diameter, adjustable steering wheel, electro-hydraulic steering, and the combination switch increase the ease of operation and operator comfort substantially.

Large Hand Grip

The large hand grip on the overhead guard is designed to allow the operator to get in and out of the truck safer and easier.

Steering Axle

The steering axle uses large conical bearings on the master pin, buffer blocks, and a large-diameter steering cylinder to substantially increase the reliability and service life of the steering system.

OKAMURA Transmission

The world-renown OKAMURA transmission, with the Power Take-Off (PTO) feature, is used in our Box Car Special forklift. This transmission was chosen as apart of our forklift's design for its reliability. The gear pump is also extremely efficient.

High-Strength Overhead Guard

The overhead guard is fabricated with specially shaped steel tubes to increase its structural rigidity and strength. It is also designed to be easily disassembled and reassembled for repairs. The guard features a flexible connection between it and the chassis to decrease vibrations. All of these features are responsible for increasing operator safety and comfort.

Standard Configuration

- / Traction Unit

/ Small Diameter Steering Wheel

/ Integrated Combination Switch

/ Extended Hand Grip

/ Adjustable Steering Wheel

/ Mechanical Parking Brake (with self-lock)

/ Suspension Seat with Safety Belt

/ Large Capacity Aluminum Radiator

/ Dynamic Load Sensing System

/ Suspension Integral Overhead Guard

/ Whirlwind High Efficiency Air Filter

/ Hydraulic Oil Suction Filter

/ Rain cover for the Overhead Guard

/ Safe Filter Element

/ Inclined Oil Way Latching Valve

/ Panoramic Rear View Mirror

/ Highly Efficient Exhaust Muffler

/ Hydraulic Oil Dipstick

/ Smooth Cushion Tire

/ Access/Exit Safe Step

/ Highly Efficiency LED Combination Front and Rear Lights

/ Large Rubber Pedal Pad

/ Full Floating Transmission

/ Maintenance-Free Battery

/ Transmission Oil Filter

/ Hydraulic Oil Return Filter
- / Combined LCD Displays

/ Gearbox Dipstick

/ Maintenance Hatch Spring

/ Integrated Controller

/ Gearbox Oil Cooler

/ Clipboard

/ Alarm Light

/ Non-Asbestos Brakes

/ Electro-Hydraulic Steering

/ Charging Reminder

/ Suspended Operation Pedal

/ Oil Gauge

/ Water Thermometer

/ Cup Holder

/ Preheating Indication

/ Limited Free Lift 2 Stage Mast

/ Charge Indication

/ Standard Fork

/ Timer

/ Standard Carriage

/ Engine Oil Pressure Alarm

/ Standard Back Rest

/ Gearbox Oil Temperature Alarm

/ Maintenance Reminder

/ Load Safety Valve

/ Horn

/ Soft Landing System
- / Reverse Buzzer

/ Mast Lifting Buffer Device

/ Tilt Piston Rod Jacket

/ Fan Protector

/ Rear Grip with Horn Button

/ Front Acoustic Hood of Steering Wheels

/ Low LPG Fuel Warning Indicator

/ Soundproof Pad on Maintenance Hatch

/ Swing-Out LP Bracket

/ Operator Presence Sensing System (OPS)

Options

- / Customizable Paint Colors

/ LED Rear Work Light

/ Auxiliary Hydraulic Valve Group

/ LED Rear Working Light

/ Fire Extinguisher

/ High-Low Overhead Guard

/ Radiator Screen

/ Pre-Cleaner

/ Blue Light

/ Counterweight Grill

/ Swing-Down LP Bracket

/ Traction Tires

/ Non-Marking Cushion Tires

/ Paper Roll Clamp

/ Sideshift & Fork Positioner

/ Wider Carriage

/ Various Specialty Attachments

/ Specialty Forks

/ Belly Pan

8000lbs XF Series Mast:
